Use colored  
pencils for  
best results...

Color me in (like I was Chinese or something) cut me out and please get me some decent clothes and killer costumes from the "A" (for apparel) section of our web site.

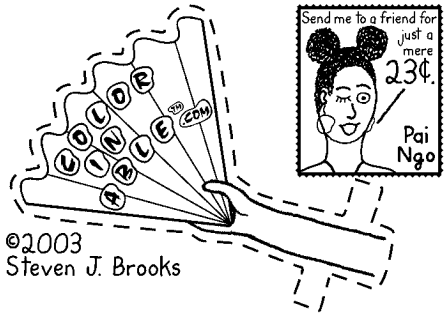

I can't believe you didn't shave your legs before getting all naked on this promo card! You're representing all of us!!!

HEY! I didn't get "All Naked"! I hate shaving my legs!

If our fans really want me shaven, before they color me in, they can use an X-Acto knife and gently shave me themselves.

Or, they could just download the card from ColorInAble.com and Photoshop off all your leg hair, and color you in too...

Or they could just get me some jeans from the apparel "A" section of the web site and leave my cute leg hair alone! I'm just glad they can't see that forest under your pits!!!
